5 de Julho 2023

Hello,

I am writing to express my strong interest in the Data Science Internship at DigiFarmz, as advertised on TheOrg.com. As a self-taught enthusiast in the field of data science, I believe my skills and dedication make me a valuable candidate for your team.

My name is Sidnei, and since 2022, I have been immersed in the world of data science, discovering a deep passion for this field. Through online courses from Great Learning and Kaggle, I have developed a solid foundation in Python programming, while my current enrollment in the IBM Data Science Coursera course enhances my practical knowledge.

One of my strengths lies in hands-on project experience. I have independently worked on various projects, such as customer churn prediction, demand forecasting, heart failure prediction, and the classic Kaggle dataset on California housing prices. These projects have allowed me to demonstrate my proficiency in solving classification and regression problems using data and machine learning techniques.

Additionally, I am proud to have developed an MVP for a startup program at SEBRAE. This software automates data analysis and model training based on user-submitted data, using tools such as SweetViz, Scikit-Learn, XGBoost, and deploying user-friendly interfaces for all my projects using Streamlit.

While I have achieved success in many areas of data science, I am actively working on enhancing my skills in database management and data mining across different types of databases. Recognizing this area as my current need for improvement, I am dedicated to deepening my knowledge through courses, practical projects, and real-world applications.

Driven by a continuous thirst for knowledge and growth, my ultimate goal is to pursue a Master's degree in Machine Learning. I believe that by joining DigiFarmz, I can contribute my enthusiasm, dedication, and adaptability to your data-driven initiatives.

Thank you for considering my application. I have attached my resume for your review. I would be delighted to have the opportunity to discuss my qualifications in detail and demonstrate how my skills align with the goals and vision of DigiFarmz. Please feel free to contact me at my phone number or email address.

Thank you for your time and consideration. I look forward to the possibility of discussing this opportunity with you.

Sidnei Alves de Almeida
